Profile Summary

Dedicated to teaching and student engagement with a strong interest in academic projects, research activities, continuous learning and contributing to educational development and innovation.

Work Experience

<i>Sept 2025 - Present</i>	Teaching Assistant at Daffodil International University <i>Department of Computing and Information Systems</i> Assisting in Computer Fundamentals and Computer Networks Lab. Mentoring students and supporting their academic development. Preparing instructional materials and assisting with course content delivery. Supervising lab sessions and guiding students in practical exercises.
<i>Mar 2025 - Aug 2025</i>	Research Assistant at Daffodil International University <i>Department of Computing and Information Systems</i> Prepared and preprocessed datasets for machine learning experiments. Conducted literature review and summarized key findings from research papers. Contributed to academic writing and documentation for ongoing research projects. Developed and tested ML models using Python.

Education

May 2026 - Present	M.Sc. in Computer Science (PMSCS), Jahangirnagar University	<i>CGPA:</i>
Jan 2026	B.Sc. in Computing and Information System Major: AI in IoT, Daffodil International University	<i>CGPA: 3.72/4.00</i>
Jan 2021	Higher Secondary Certificate in Science Tongi Government College	<i>GPA: 4.83/5.00</i>
May 2018	Secondary School Certificate in Science Shahajuddin Sarker Model Higher Secondary School	<i>GPA: 4.83/5.00</i>

Publications

Book Chapter

- **Nirob, R.H.**, Cruze, F.R.D., Hosen, M.F., Ahmed, F. & Kader, M.N., 2025, December. Psychological risk profiling for post-COVID-19 anxiety using interpretable ensem-

ble learning. In *International Conference on Intelligent Data Analysis and Applications (IDAA 2025)* Atlantis Press. Status: Accepted and waiting to appear online.

Conference

- **Nirob, R.H.**, Mollah, M.S.H., Wasima, J., Kuddus, M.R. & Cruze, F.R.D., 2025, December. Advanced malware detection through function call graph analysis with Graph2Vec embeddings and Graph attention networks. In 2025 28th International Conference on Computer and Information Technology (ICCIT). IEEE. Status: Accepted and waiting to appear online.
- **Nirob, R.H.**, Wasima, J., Cruze, F.R.D., Ahmed, F. & Kader, M.N., 2025, November. Identifying patterns in Bangla fake news using Word2Vec and attention based CNN. In 2025 11th IEEE International Women in Engineering (WIE) Conference on Electrical and Computer Engineering (WIECON-ECE). IEEE. Status: Accepted and waiting to appear online.

Projects

IoT	Duck Detection and Counting System (Piloting Stage) Designed a system to detect and count ducks using RoboFlow, YOLO models and Python. Applied ML techniques to ensure accurate detection and real-time data collection.
IoT	Face Recognition Based Attendance System Implemented an attendance system using ESP-32, OpenCV and Python. Automated student attendance recording for improved accuracy and efficiency.
Spring Boot	Job Portal with AI Features Developed a job portal using Spring Boot and MySQL. Integrated AI features including career recommendations and CV generation based on jobseeker profile. Jobseekers can browse/apply for jobs, employers can post jobs and review applicants.
Spring Boot	Growcery - AI-based Fruits & Vegetables Shopping Platform Built an intelligent shopping platform where customers input health conditions to receive diet-based fruit/vegetable recommendations. Developed using Spring Boot and integrated Gemini API for AI-driven suggestions.
PHP	Think Aquatics - Online Aquarium Shop Developed an e-commerce platform for aquarium products (fish, plants, accessories). Implemented features for product management, pricing and customer browsing. Built with PHP for backend and dynamic content handling.

Technologies and Skills

Languages:	Python, C, C++, SQL, PHP, HTML, CSS
Python Libraries:	NumPy, Pandas, scikit-learn, TensorFlow, PyTorch, matplotlib, Angr, Networkx
IDE:	Eclipse, VS Code, CodeBlocks, Arduino IDE
Tools:	Microsoft 365, Google Workspace, L ^A T _E X, Adobe Illustrator

Courses

Micro-Credentials Embedded Systems and IoT
Daffodil International University Micro-Credentials Academy

Achievements

2023 Secured First Place in the Bootcamp Using ChatGPT

Co-Curricular and Extra-Curricular Activities

Lab Prefect Introduction to IoT Course
Lab Prefect Computer Networks Course
Event Organizer AI Fest 2025
